We are not a high volume law firm. We accept only a limited number of cases involving serious personal injury or death.

We understand and take seriously the trust our clients place in us. We know and understand what is at stake for our clients, their families, and their future. We carefully limit the cases that we accept so that we can give each client our full attention. We'll be there to take your calls, and to talk to you when you want to discuss your case – day or night.

We work hard to position our clients for a favorable settlement, but if this cannot be achieved, we are well-prepared for trial.

Our founding attorney, John B. Flemming has been a personal injury and trial lawyer for more than 30 years. If the defendants and their insurance companies won't offer a fair and acceptable settlement, we are well-prepared to go to trial. Mr. Flemming has achieved dozens of settlements for clients in excess of \$500,000, and jury verdicts for clients ranging up to \$3.7 million.

John B. Flemming, Esq.

If you have suffered a serious injury or are a survivor of a person killed through the fault of someone else, please call us. The initial consultation is free, and there is no fee unless and until a recovery is made for you.
